Reasons For Allowance

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a luminescence of the plasma display panel having widths of partition walls decreases or discharge spaces between partition walls increase from the periphery of the rear substrate toward a center of the rear substrate as required in claims 1, 5, 16. The prior art also lacks to maintain a luminescent of the plasma display panel while increasing an opening ratio of the discharge spaces as the discharge spaces approach a center of the second substrate to account for a voltage drop in ones of the bus electrodes of the first electrodes due to line resistance during operation of the plasma display panel as required in claim 13. The prior art also fails to teach a first, second and third discharge spaces adjacent to the others in the respective order, in that, the first discharge space having its width is smaller than each width of the second and the third discharge spaces as required in claim 19.
3. The remaining dependent claims are allowable for at least the above noted reason.

Remarks

Amendment filed October 30, 2003 has been entered.
